## APPENDIX 4 LIST OF CONSULTANTS

The ILC engages consultants on the same basis as it procures all goods and services. Over recent years the ILC has significantly reduced its use of consultants. This has been achieved in a number of ways:

- Employing specialist staff to undertake legal, property negotiations and conveyancing
- Investing in the skills development of existing staff.

During the year the ILC continued to contract a number of consultants for the performance of specialist professional services. It is expected that this practice will continue.
