Appendix 5 List of Consultants

The ILC engages consultants on the same basis as it procures all goods and services. Over recent years, the ILC has significantly reduced its use of consultants. This has been achieved in a number of ways:

- Employing specialist staff to undertake legal, property negotiation and conveyancing; and
- Investing in the skills development of staff.

During the year, the ILC continued to contract a number of consultants for the performance of specialist professional services and where the ILC requires independent review or evaluation. The total spend on consultants was \$983,600 (GST inclusive). It is expected that this practice will continue.

During 2004–2005, sixty-six new consultancy contracts were entered into involving total actual expenditure of \$499,317. In addition, twenty-seven ongoing consultancy contracts were active during 2004–2005 year, involving actual expenditure of \$484,282.

Below is a list of all consultancies used in 2004–2005 to the value of \$10,000 (GST Inclusive) or more.
